

## LETTER OF REFERENCE

SERIOPLAST S.p.A. Socio Unico awarded EastWave Building Company Sp. z o.o. for general contractor contract for the New Building for Plastic Packaging Production located on the grounds of the Łódź Special Economic Zone in Kutno. The contract was fulfilled according to the "turnkey" formula, meaning to say that industrial building was designed and constructed to the stage of obtaining all approvals necessary for the commencement of the operations the building was designed for.

The facility consists of:

- |   |                |
|---|----------------|
| 1. The production area                  | - 2 000 sq m;  |
| 2. Warehouse                            | - 3 500 sq m;  |
| 3. Office                               | - 700 sq m;    |
| 4. Infrastructure with fire water tank; |                |
| 5. Road works                           | - 10 000 sq m. |

All works and associated activities were performed in compliance with high quality standards and in strict accordance with the contractual building schedule.

The observations made during construction period showed evidently that EastWave Building Company Sp. z o.o. is the firm of extensive experience in managing the processes that take place on a modern building site.

Our cooperation with EastWave Building Company Sp. z o.o. allow to recommend this firm as a highly dependable candidate for the role of general contractor in a building investment project.

**Ing. Carlo Luigi Innocenti**
